Standard Collection

The Standard Collection is 25 pre-colored, traditional, designs. They are available in 3x3, 4x4, 5x5 and 6x6. Due to the bodies being high fired, they are freeze-thaw resistant and can be used for walls, floors, indoor, outside, and also for pools and fountains. From the clay to the hand painting, all ARTO decos are produced in California. Styles "a" and "b" are completely glazed while the "c" color way has sections intentionally unglazed to show the beauty of the raw clay body.

Many more designs are online at www.artobrick.com. Since all the ARTO products are sourced and handmade in California we are able to customize and recolor any way you choose.

Runners and Quads

These tiles are ideal for long "runs" like stairs, below moldings, or the water line of a pool or fountain. The Quads are used in groups of 4 to make a larger deco. Many more designs are online at www.artobrick.com.

Custom Available

The ARTO Tile Studio, in essence, is a Design Studio first and a factory second. We are designers at heart and enjoy making custom pieces for you. We have an extensive catalog of traditional predesigned line drawings that can be colored to match your decor and style. From a deco to a large scale mural, the ARTO Tile Studio Artisans can create new designs or modify our existing catalog.

Two tiles painted in two different color ways. Notice how it can greatly alter the look and feel. Possibilities are endless.

Any deco tile can be recolored to match your design needs. To the right is one of our ARTO Tile Studio paintsheets. You can send us your own design, logo, or picture to replicate as an individual, tile, runner, quad, or mural.

Paintsheets can be found online at www.artobrick.com.
