

PRATT & LARSON

TILE HANDMADE IN AMERICA

INLINE SERIES

Pratt & Larson is delighted to introduce the InLine series to our Bas Relief collection. Created by Belle Iskowitz & Anthony Asch, InLine enhances a classic shape with contemporary, linear patterning.

Consisting of 12 different 3x6 designs, InLine creates beautiful, intriguing layers of pattern and geometry when used individually or in combination.

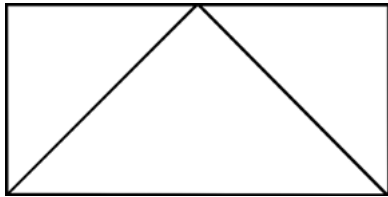

InLine allows you to create patterns as simple or complex as you desire, the options are endless. We've included layout suggestions within this brochure, but we're certain you will create many exciting new combinations as well!

The InLine patterns are available in any of our monochrome glazes.
