6x6 white-body wall tile - 5 colors <sup>(2)</sup>  
8x8 porcelain -  
2 coordinating colors

The 6 x 6 wall tile offers a handcrafted look reminiscent of the "zellijes" tiles made by hand in Morocco. While all the colors have shade variation, some have more movement than others. All the colors are made on a bisque with an uneven surface structure and irregular edges that are slightly chiseled. These characteristics are intentional and add to the hand-made appearance.

The graphic on the coordinating 8 x 8 porcelain is a mix of cement and metal, including some images that show the shadow of the mesh that is left on the surface of cement made the traditional, Italian way. The edges are slightly chiseled to accentuate the vintage look.

### Wall Installation Information

T-Square wall tile is intended for interior walls. If installing with a cement-based adhesive, it is recommended to use a flexible setting material. All substrates should be properly reinforced to be sure there is no movement. Wood studs need to be dry and properly braced with a minimum depth of 3". For mortar installations, the mortar bed has to be cured (less than 2% humidity) and has to have proper reinforcing. It is important to pull from multiple boxes during installation, rotate pieces, and note the placement of the different images to get the proper final blend.

### Porcelain Size - Non-Rectified

8 x 8 SATS--88

### Porcelain Colors

SATSBC Blanc

SATSMS Moss

For additional interest a small percentage of tiles have a light mesh graphic overlay. The graphic varies in appearance from tile to tile.

### Porcelain Installation Information

T-Square Porcelain is suitable for walls and floors including residential and light commercial use. The minimum recommended grout joint is 3/32". As with all inkjet products, there are many different graphics that are mixed and packed randomly. It is important to pull from multiple boxes during installation, rotate pieces, and note the placement of the different images to get the proper final blend.
