

Terre Etrusche is a Terracotta look in 3 colors named after the regions in the middle of Italy, the "Land of the Etruscans." The name evokes the historical nature of the terra-cotta look. And while it holds its place of importance in the ceramic tradition, it's an aesthetic that never goes out of style. This porcelain version comes in 16 x 16 and an 8-1/2" Hexagon, both sizes that are historic and also current.

16 x 16

8-1/2" Hex

Lazio (ESTELO)

Toscana (ESTETA)

Marche (ESTEME)

Colors are intended as a guide only and may vary from actual tile. Sizes listed are nominal. Please check samples before making final selection and to get actual dimensions for layout.

MADE IN ITALY

PRODUCT INFORMATION

Sizes

16 x 16 ESTE--/1616
8-1/2" Hex* ESTE--/9HX

Due to the nature of this material and small carton size, **orders for the 8-1/2" Hex and Deco must be for full boxes only.** Please note that we do not accept returns in general. In the rare occurrence that we make an exception and do take a return of this product, only factory sealed full boxes can be accepted.

*8-1/2" hex dimensions are approximate.

Colors

ESTELO Lazio
ESTEME Marche
ESTETA Toscana

Trim

The surface bullnose is made from field tile that is cut, ground and reglazed.

ESTE--/SBN 3 x 16 Surface Bullnose

Installation Information

There is a wide range of variation with many different graphics that are mixed & packed randomly. It is important to pull from multiple boxes during installation, rotate pieces, and note the placement of the different images to get the proper final blend.

The minimum recommended grout joint is 3/32". Please note that this material is non-rectified. If using multiple colors together, please check the caliber and be aware that you may have to adjust the size of the grout joint to make your pattern work.

Usage

Terre Etrusche is suitable for residential to moderate commercial applications.

Deco

ESTE/9DHX 8-1/2" Hex*

Traditional Maioliche patterns in white and blue glazes are laid over the 3 terracotta base colors. Then the patterns are faded as if worn off over time. The 7 different patterns each appear on multiple pieces - some are worn more and some are worn less - for a total of 41 faces. The deco patterns are mixed and sold randomly.

Physical Characteristics

Physical Properties	Norms	Value
Water Absorption	10545-3	<0.5%
Frost Resistance	10545-12	Resistant
Stain Resistance	10545-14	Class 3
Slip Resistance	DIN51130	R10
Abrasion Resistance	10545-7	PEI - LO 5 PEI - ME 4 PEI - TA 4
*Dynamic Coefficient of Friction	ANSI A326. 3:2017	Wet ≥ 0.42

* The Dynamic Coefficient of Friction is a general guide only. Testing may vary with different production runs and with different testing labs. As noted in the American with Disabilities Act (ADA) the coefficient of friction varies considerably due to facts not under the control of entities such as the manufacturers and distributors. These factors include, but are not limited to, contaminants, slope of terrain, drainage conditions, adjacent surfaces, etc. Suitability for any installation can only be determined by a site examination of all conditions that could affect the slip resistance of the tile being installed. Continual cleaning and maintenance must be performed once the tile has been installed. For more information see our current handout Americans with Disabilities Act and Slip Resistance of Tile.
